

PRODUCT DATA SHEET

Natural Chamois Leather

Product Name: Natural Chamois Leather
Material: Genuine leather, traditionally sheep or lamb skin
Product Type: Soft, absorbent cleaning and polishing leather
Colour: Natural cream / pale yellow
Finish: Sueded on both sides
Origin: United Kingdom
Product Code: 2874-D

Product Description

Natural chamois leather is a soft, flexible and highly absorbent leather manufactured from selected skins and processed to produce a low-lint, non-abrasive wiping material. It is suitable for drying, cleaning and polishing delicate surfaces where excellent water absorption and a soft finish are required.

Typical Properties

Property	Typical Specification
Material	Genuine sheep/lamb leather
Appearance	Soft, suede-like surface
Colour	Natural cream to pale yellow
Thickness	Approx. 0.7–1.5 mm*
Absorbency	High
Flexibility	Excellent
Surface	Soft and non-abrasive
Linting	Very low
Odour	Characteristic natural leather odour
Reusability	Washable and reusable
Biodegradability	Natural leather material
Available Sizes	[Insert sizes / dimensions]
Grade	[Standard / Premium / Automotive]

*Thickness varies according to skin and manufacturing specification.

Key Features

- Excellent water and moisture absorption
- Soft and gentle on polished or delicate surfaces
- Low-lint performance
- Flexible and easy to wring
- Good durability when correctly maintained
- Reusable over multiple cleaning cycles
- Suitable for professional and domestic applications

Typical Applications

Natural chamois leather is commonly used for:

- Automotive bodywork and glass drying
- Vehicle detailing and polishing
- Window and mirror cleaning
- Optical and precision surface wiping
- Marine and boat maintenance
- Household cleaning
- Furniture and polished surface care
- General industrial wiping where a soft absorbent material is required

Care Instructions

Before first use, rinse thoroughly in clean lukewarm water.

After use:

1. Wash by hand using lukewarm water and a mild soap.
2. Avoid strong detergents, bleach, solvents and fabric conditioners.
3. Rinse thoroughly.
4. Gently squeeze out excess water; do not aggressively wring or twist.
5. Stretch back into shape while damp.
6. Allow to air dry naturally away from direct heat and strong sunlight.
7. When dry, gently rub or stretch the leather to restore softness.

Storage

Store in a clean, cool and dry environment. Keep away from excessive heat, direct sunlight, strong chemicals and prolonged damp conditions. Ensure the product is fully dry before long-term storage.

Quality / Compliance

Manufactured from genuine leather using processes appropriate for chamois-type cleaning leather.

Important Note

As chamois leather is a natural material, variations in colour, thickness, shape, texture and surface appearance are normal and should not be considered defects. Technical values shown are typical values and may vary between production batches.
